Introduction to Food Waste Notes

Think about the food served to you – What percentage of it do you think goes into the trash or compost?	Why isn't the food eaten?
Think about a box of tomatoes sent to a grocery store. What percentage of those tomatoes do you think go into the trash or compost?	Why isn't the food eaten?
Think about a field of tomatoes being grown on a farm. What percentage of those tomatoes do you think go into the trash or compost?	Why isn't the food eaten?

2. According to the video, what percentage of food produced goes to waste?

3. Look at the Food Waste Pie Chart. Record the percentage of each type of food that goes to waste:

Type of Food	Percentage the Goes to Waste
Dairy Products	
Vegetables	
Fruit	
Grain Products	
Eggs	
Nuts
