Gulf of Maine Mapping Activity

Use color pencils to fill in the Gulf of Maine of this map. Use the maps from my blog as a guide:

1. Which US states touch the Gulf of Maine?
2. Which Canadian provinces touch the Gulf of Maine?
3. Go to the interactive National Geographic Map (link on blog) and zoom into the Gulf of Maine. What do you think the different colors of blue mean?
4. Use the National Geographic to look for other gulfs in the world (hint – look for partially enclosed bodies of water connected to the ocean). List some here:
