

Water Cycle Comic

Name: _____ Block: _____ Date: _____

Draw the story of a drop of water as it moves through the water cycle. There should be at least one panel for each part of the cycle including: **evaporation**, **precipitation**, **condensation** and **accumulation**. Include different parts of the hydrosphere such as oceans, glaciers, lakes and rivers, groundwater, plants and animals, soil, and clouds. Write a caption for each frame and include important labels.
