Name:

Time Period:

Exceeds: Envision transitional forms for this animal based on a future environment.

Rough diagram of transitional form	Notes
<p>Name:</p> <p>Time Period: <i>15 millions years in the future</i></p>	<p>Average surface temperatures have changed, often 10-15 degrees F warmer or colder than usual. The oceans are 5 degrees warmer on average. The oceans are rising and the and coastal areas are being flooded. There are more intense storms like hurricanes and blizzards.</p>
<p>Name:</p> <p>Time Period: <i>30 millions years in the future</i></p>	<p>Average surface temperatures are more extreme, sometimes 20-30 degrees F warmer or colder than usual. The oceans are 10 degrees warmer on average. There is more salt water and less land and fresh water. There are more intense storms like hurricanes and blizzards.</p>
